

PRAIA CITY GROUP ON GOVERNANCE STATISTICS: WORK PLAN AND ACTIVITIES FOR 2017

9 MARCH 2017

1:15 PM - 2:30 PM

CONFERENCE ROOM 9, UN HEADQUARTER

Governance has been increasingly acknowledged as an essential element for sustained economic growth, sustainable development and the eradication of poverty and hunger. Furthermore, there has been a high interest among national statistical offices as well as other stakeholders for governance, peace and security statistics as an important new domain of official statistics and for the particular measurement considerations attached to the domain.

In this regard, the Praia Group on governance statistics aims to produce a handbook on governance statistics which will cover the conceptualization, measurement methodology and dissemination of governance statistics by March 2020. The Praia Group Work Plan for 2017 contains detailed tasks, timeframe and resource implications for the production of the handbook.

This event will be an opportunity for the Praia Group member to join an interactive discussion on the detailed activities of the Praia Group Work Plan for 2017. The event will begin with short presentation of the Work Plan by the Praia Group Secretariat and the major part of the event will be given over to interactive discussions with participants.

Speaker:

- Osvaldo Borges, President, National Institute of Statistics Cabo Verde (Praia Group Secretariat)

Moderator:

- Alexandra Wilde, Senior Researcher and Policy Advisor, UNDP Oslo Governance Centre

RSVP: Suyoun.Jang@ine.gov.cv
